

ASF700

PROFESSIONAL SWIVEL EXHAUST BLOWERS WITH HIGH PERFORMANCE

Blowers with high speed and high air flow ejected for high work performance

Perfect for cleaning of parks, boulevards, golf courses, roads, large areas with light and medium-heavy bodies; to dry wet roads in presence of water stagnation in slight depressions of the asphalt.

To improve the working conditions, the discharge air performs a rotation of 180 degrees to the hydraulic control and adjustment of the opening that can change the inclination also with hydraulic control.

The blower is supported by two pivoting wheels, adjustable for constant working height.

Specifications

- Apply front or rear to the tractor
- Power requirement 100 HP
- PTO 540/600 or 1000 rpm
- 10 +10 Double rotor blades, diameter 700 mm
- Speed exhaust air max. 250 Km / h
- Quantity exhaust air max. 22,000 m³ / h
- Weight 415 Kg
- Dimensions 120x150 h140
